

Phek Government College

Institutional Best Practices

1) Promotion of skill development

Promotion of skill development is a highly valued best practice of the institution. As part of the promotion of skill development, students engage in different activities. They are given ample opportunities to develop, hone and sharpen their skills. Toward this end, the college has institutionalised the promotion of skill development through various activities which are conducted by the Skill Development Club of the college in consultation with the IQAC. The Club activities focus on the production and promotion of 100% handcrafted products besides other skills such as carpentry, cooking, tailoring, electrification etc.

However, owing to the Covid-19 pandemic and the successive lockdowns imposed by the government, the institution had remained closed for almost the entire academic session. As such, the annual activities related to the promotion of skill development could not be conducted.

2) Teacher-student Synergy for a Green Campus

The teacher-student synergy towards promoting a green campus is a practice which is unique not only to the institution but also in the context of India's Higher Education. The campus is located in a 38-acre land, on a hillside surrounded by lush green vegetation. This provides an excellent scope for developing a green campus. Over the years, this practice has translated into the students not only taking care of the cleanliness of the campus, but also taking care of the flowers, plants and trees and nurturing them.

In congruence with the best practice, the institution has strived to maintain the institution as a green campus during the 2020-2021 academic session inspite of the limitations posed by the Covid-19 pandemic. A number of social works were conducted for the beautification of the college campus. Usually, on days assigned for social work, all the students as well as the teaching and non-teaching staffs engages in cleaning the classrooms, laboratories, the college buildings and the adjoining lawns. The students engaged in cleaning the natural surroundings of the campus and the whole administrative blocks and buildings within the college premises. All these activities are conducted on a regular basis as part of the institution's best practice. However, during the session 2020-2021, many of the activities could not be carried out with the usual frequency as the pre-pandemic days.

Social Work conducted on 11th September, 2020

Mass social work on 19th September, 2020

Social work on October 8, 2020
