## Analysis of Student Satisfaction Survey: 2022-2023

A Student Satisfaction Survey was conducted for the year 2022-2023 as per NAAC guidelines. The data was collected on the basis of the questionnaire designed by NAAC to access teaching-learning and evaluation of higher education institutes. A random sample of 48 respondents, 40 pursuing Bachelors in Arts and 8 pursuing Bachelors in Science was surveyed upon.

According to the survey, $88 \%$ of the students positively responded that $85-100 \%$ of the syllabus was covered in class, $8 \%$ felt that around $70-84 \%$ syllabus was covered and 2 respondents opined that around $55-69 \%$ of the syllabus was covered. In terms of teacher's preparedness for class, $75 \%$ respondents expressed that the preparation was satisfactory and the remaining $25 \%$ felt that the teachers were very thorough. $46 \%$ of the students found the teacher's communication skill to be always effective, $39 \%$ felt that it was sometimes effective and $15 \%$ shared that it was satisfactory. $33 \%$ students described the teacher's approach to teaching as excellent, $48 \%$ described it to be very good and $19 \%$ felt that it was good.

With regard to fairness in internal evaluation, $42 \%$ of the respondents viewed that the teachers were always fair, another $42 \%$ shared that they were usually fair and $16 \%$ responded that it was sometimes unfair. $13 \%$ of students responded that their performance in assignments were discussed with them every time, $56 \%$ shared that those discussions were usually done, $27 \%$ concluded that the assignments were sometimes discussed upon and 2 respondents cited that those were rare. $20 \%$ of students stated that the institute regularly took active interest in promoting internship, student exchange and field visit opportunities. $32 \%$ mentioned that such opportunities were often promoted, another $38 \%$ shared that it happened sometimes and $10 \%$ felt that the institute rarely promoted such activities.

In the teaching and mentoring process, $15 \%$ felt that they were significantly facilitated by the process in their cognitive, social and emotional growth, $52 \%$ responded that it helped them very well and $33 \%$ opined that they were moderately impacted by the teaching and mentoring process. Majority of the students $(60 \%)$ agreed that the institution provided multiple opportunities to learn and grow and $25 \%$ strongly agreed to the same while some $15 \%$ remained neutral in their opinion. Around $50 \%$ of students responded that they were usually informed about the course outcomes and program outcomes, $16 \%$ stated that they were occasionally informed and another $34 \%$ were of the view that such information's were provided every time.

The survey showed $33 \%$ of the respondents recording that their mentor did necessary follow-ups of the assigned task every time. $29 \%$ responded that follow-ups were usually done and while another $29 \%$ opined that the mentors got back to their assigned task sometimes, $8 \%$ mentioned that those were rarely done. $58 \%$ students felt that the teacher usually illustrated the concepts through examples and illustrations, $13 \%$ mentioned that illustrations were occasional, $29 \%$ revealed that the teachers always used examples and illustrations in explaining the concepts. $65 \%$ of students said that the teachers could reasonably identify their strengths and encourage them and while $6 \%$ felt that teachers could only partially do that, $29 \%$ answered that teachers were fully able to encourage them after identifying their strengths. About $44 \%$ students responded that the teacher usually noted their weakness and helped in overcoming them, $20 \%$ were of the view that they were occasionally assisted on the matter, $32 \%$ mentioned that the teacher helped them every time and 2 students mentioned that teachers rarely helped them. About $57 \%$ of the students agreed that the institution made efforts to engage them in monitoring, review and continuous quality improvement of the teaching- learning process. Another $23 \%$ strongly agreed to this view and $20 \%$ remained
neutral. $50 \%$ of respondents cited that the teachers moderately used student centric methods for enhancing the learning experience, $23 \%$ mentioned that student centric methods were used to a great extend and $27 \%$ responded that the teachers somewhat used such methods.

Students were positive that teachers encouraged them to participate in extracurricular activities with $45 \%$ strongly agreeing to this, $38 \%$ being agreeable to it and just 2 students remaining neutral to that opinion. $35 \%$ of the students responded that the institute/teachers put in moderate efforts to inculcate soft skills, life skills and employability skills, preparing them for the world of work, $20 \%$ felt that efforts were somewhat made in that direction and $45 \%$ strongly agreed that the institute/teachers made efforts to a great extent for the same. According to $15 \%$ of students, more than $90 \%$ of teachers used ICT tools such as LCD projectors, multimedia, etc., during the course of teaching, $52 \%$ stated that $70-89 \%$ teachers used ICT tools, $2 \%$ shared that about $30-40 \%$ of teachers used ICT tools and $31 \%$ cited that $50-69 \%$ teachers used those tools for teaching them. $33 \%$ agreed that the overall quality of the teaching learning process was very good, $6 \%$ remained neutral and $61 \%$ concluded that they strongly agreed upon the ideal quality of the overall teaching learning process.

The respondents also made observations and suggestions to further improve the overall teaching-learning experience in the institution. They suggested the need for more tests, presentations, class interactions and discussions, to organise more extracurricular activities, student exchange activities, more detailed explanations, to have a more cordial and friendly relationship between students and teachers, arrange for career guidance talks and seminars on a regular basis and to connect to students on an individual level so as to be able to help and encourage them.

The college does well in areas of teaching and mentoring, with the faculty being portrayed as having the ability to communicate effectively and illustrate concepts efficiently, encourage class participation, motivate the students, identify their strengths and weakness and help them as much as possible. Further steps are needed to incorporate more extracurricular activities, field trips, organising career guidance programs and class discussions in the curriculum though some improvements have been made in this direction.
